Early Weakness of the Stock Market Soon Disappeared.

TONE BECAME STRONG

The Losses, Even in the Weak Stocks Were Wiped Out-The Close Was Quiet and Steady. Notes.

NEW YORK, July 27.—The failure of mother Stock Exchange firm, announced shortly after the opening this morning, renewed the feeling of nervousness, and prices were again forced to a lower level, There were violent declines in some of the stocks in which the failed firm was immediately interested. A number of the standard railroad stocks at the same time gold down from 1 to 2 points under Saturday's level. But even during this period of initial weakness there was manifest a good absorption of stocks and points of strength persisted against the depression. Later in the day, when it was seen that no further failures were to be announced, the tone of the market became very strong, and the early losess were wiped out, even in the weak stocks, while the general level of the market rose to a substantial level over Saturday night. The demand was especially conspicuous for New York Contral, St. Paul, Bouthern Pacific, Reading, Pennsylvania, Illinois Central and stocks of a like substantial grade. Some large orders were executed in all of the stocks, and at other points throughout the market, so that prices ended the day from 1 to over \$ points above Saturday's level for prominent stocks and at much wider advances for some of the less active issues.

Only a few of the inactive stocks showed such violent falls as have characterized the recent market, which pointed to a conclusion that there was less pressure to close out unmarketable securities figuring as collateral in loans and an improvement in facilities for securing accommodation. The recent contraction of credit in the stock market has been largely engaged, involving as they did. inflation and manipulation of this inflation has really brought a sense of relief from the oppression of artificial conditions hanging over the market, and sustained with difficuity. These held projects are quite apart from the carlier ones in which the syndicates were successful in holding up prices until their holdings were taken off their hands and which have left behind them also their

NEW YORK, July 27,—The opening on the Block Exchange was better than might have been expected, in tiew of the nervous character of the press comment on market conditions and the expectation that the calling of margins would necessitate further liquidation. The sell-ing orders in the hands of the commission houses were noticeably light, and although quadrious were generally lower, prices upon the whole held better than the room had looked for London was the early safter of Southern Pacific, and these transactions probably represented collateral for loans. The Harriman interest is credited with extensive purchases in the recent

The Workings in Delivery and the lowa Central issue on Saturday gave a plain indication that E. S. Hooley and Co. might be expected to suspend, and the amouncement was consequently no surprise to the rosus.

When it was seen how little the firm's commitments concerned the general market the effect was rather good.

The sharp raily in Hookkyn Rapid Transit contradicted various subster rumors in connection with interests assected with that property. There were not think that a property of the substead of the holdings, but another interest had no difficulty in flushering its commitments, and this was the one most freely mentioned in the Sirect.

Boston—The failure of william Rassett is regarded as unimportant here. The house was a small one, and had been inactive for some time.

MARKET STRONG UP TO NOON:

MARKET STRONG UP TO NOON:

The market beld well up to noon and gave very plsin evidence of strong support, possibly belped to some extent by bargain hunting purchases and the covering of shorts. Upon the whole, however, the selling on the rally looked a good deal better than the burjus, and the most conservative judges were not satisfied that all the trouble was over.

Among the bargain hunting buying that in pelaware and Hudson was as good as any.

The weakness in such stocks as National Lead, Railway Steel Sring and a number of other minor industrials represented pool liquidation.

AFTERNOON TRADING:
The market held well in the early afternoon, although prices were not quite at the best of the day, and the rally was plainly taken advan-

The Liverpool cables als outmed easier and later reports drifts in of good rains in the western beit, which shortly after mid-day received official cluftmation. Following the initial firmness the thirtke was quiet during the forence. There was little or no support, and as the seasion progressed offerings became more liberal, July, which had opened at 13.30 and asold at 13.33, was depressed to 13.10, and August, after selling at 12.40, or 8 points over Saturday's close, was forced down to 12.10 under realizing. September was weak all day. Opening at 10.05 it sold down to 10.52, and the later months also attracted general pressure. Toward the close the market was the most active of the session, and whill the list was finally steady, prices were at the lowest of the session, or at a net decline of 5@30 points. Believed a Treaty Will Be Ready for Signature by September.

(By Associated Press.)

WASHINGTON, D. C., July 27.—While there has been a luil in the Manchurian negoliations during the past week, it is stated that up to this point satisfactory progress has been made, and there is every reason to believe that before the first of September next a teraty will be ready for signature which will define the trade opportunities of the United States in Manchuria. An authorized statement on the situation is as follows:

"The question of the opening of new localities to trade in Manchuria has been in substance satisfactorily arranged with the Chinese Government, and nothing remains to be settled but the question of the date when said localities shall be opened. This maturally will be subsequent to the exchange of ratifications of the treaty in which the opening is agreed reaty in which the opening is agreed

A BUSY SUNDAY IN WALL STREET

Clearing the Tangled Books for Another Week's Business.

NEW YORK, July 27.—Wall Street seldom sees so lively a Sunday as yesterday. From shortly after 9 o'clock in the morning until sunset many of the offices in the financial district had practically a full force of clerks at work, and hansom cabs and automobiles, with bankers and brokers aboard, were flying in and out of Pine, Cedar, Wall, Broad and Nassau Streets, Exchange Piace and lower Broadway all day. A stranger in the district might have imagined that the Stock Exchange had got mixed in its dates and was onen for business while the chimes of Old Trinity called to worship.

the chimes of Old Trinity called to wership.

Messenger boys were on the run and through open office doors accountants, stripped pretty well down to the buff, were to be seen poring over books. At the noon hour the few restaurants that were open downtown did a rushing business. A man who was at work in an office in Exchange Place said:

"Oh, it's all because some folks tried to sell all the stocks there was in the world on Friday and Saturday. Other folks tried to buy it and we poor devils that have to keep the books are made to pay the piper. I've been down here twenty-five years, and, not even in the days of the Northern Pacific corner, were there so many transfers to make.

GETTING THE JURY VERY SLOW WORK

(By Associated Press.)
CYNTHIANA, KY., July 27.—Curtis lett and Thomas White, charged with the Marcum assassination, were brought into ourt this morning, guarded by six deputy and the court-room was packed. The work of securing a jury was begun, but many who were summoned were excused many who were summed were excused for various reasons. Attornsys for the defense filed & plea against the jurisdiction of the court, on the ground that the special term would make one more than is provided for by the statutes. The judge overruled the plea. The court ordered that the militia be used only for guardien the fall.
